

End Marijuana Prohibition NOW!

How is Terrorism Funded?

America's prohibition of drugs finances terrorism by artificially raising the price of drugs by up to 17,000%, and then funneling the enormous profits to terrorists in other countries--just as alcohol prohibition financed Al Capone and the mob in the 1920's. You'd think we'd learn. If you support the War on Drugs or vote for the politicians who wage it, you're supporting terrorism.

Think legalizing marijuana is a bad idea? Think again! With a regulated drug market, only adults with ID would be able to buy marijuana. As it stands now, **your children can buy marijuana on any street corner and even in school!**

Paid for by the Constitutional Patriots Opposing Prohibition.
